Identical letters dated 21 January 2015 from the Permanent Representative of Israel to the United Nations addressed to the Secretary-General and the President of the Security Council

I am writing to share a detailed list of incidents for the period from 1 June 2014 to 31 December 2014 in which Lebanon violated Security Council resolution 1701 (2006) and breached Israeli sovereignty. For years, Israel has sent letters and warned the international community that the Government of Lebanon is ignoring its international obligations.

I found it astounding that a senior United Nations official recently declared that "UNIFIL has seen no evidence of unauthorized weapons transfers in its area of operations". As you can see from the reports that follow, the violations are visible and they are frequent (see annex).

It is disconcerting to note that most of the violations are absent from reports provided to the Security Council. Members of the international community must act with a collective purpose to prevent a dangerous escalation. Hizbullah must be disarmed and the Government of Lebanon must abide by its international commitments and fully implement Security Council resolution 1701 (2006).

I should be grateful if you could circulate the present letter and its annex to the members of the Security Council as a document of the Council.
